3.3 Playing a puzzle: Puzzles are in the form of trivia questions, you are expected to type in the correct answer to the question in the box below. Note: answers are not case sensitive but adequate spacing should be provided. The click submit.

Puzzle: 1

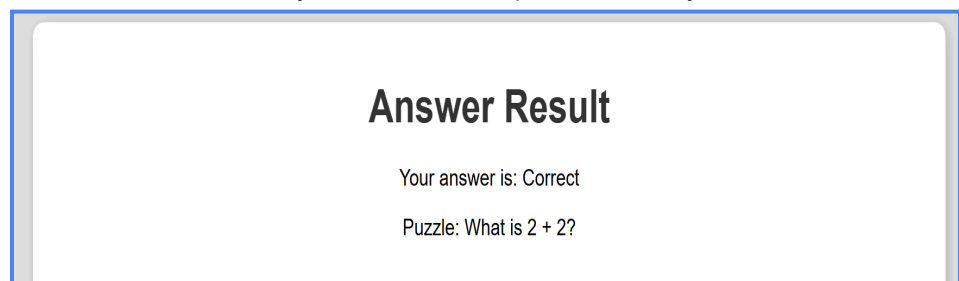

What is $2 + 2$?

4

Submit

Return to Puzzles

You should see whether you answered the puzzle correctly or not.

Answer Result

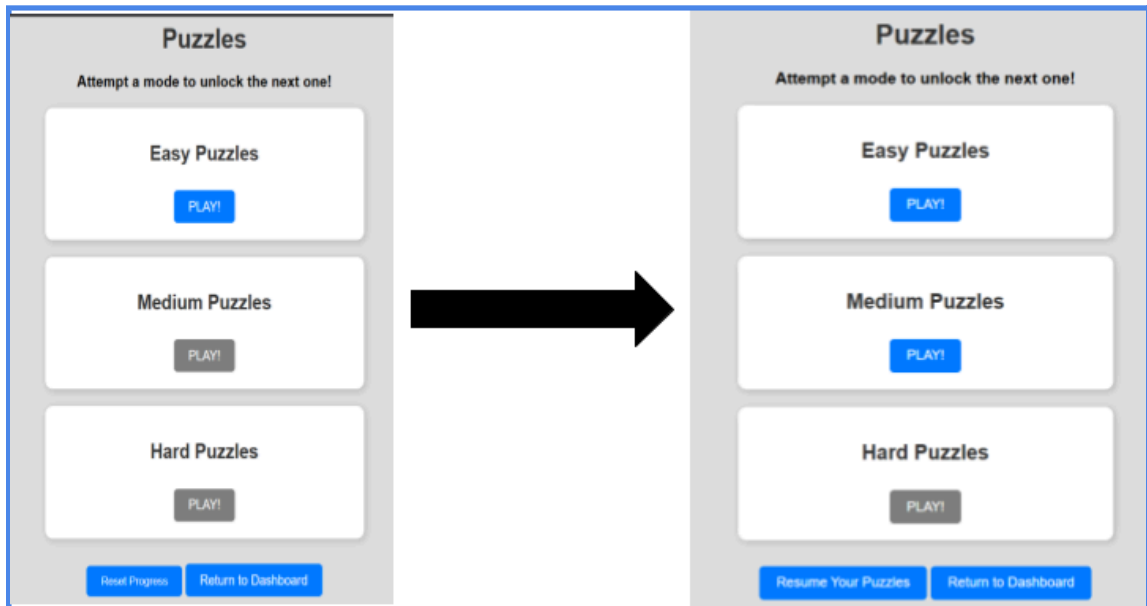

Your answer is: Correct

Puzzle: What is $2 + 2$?

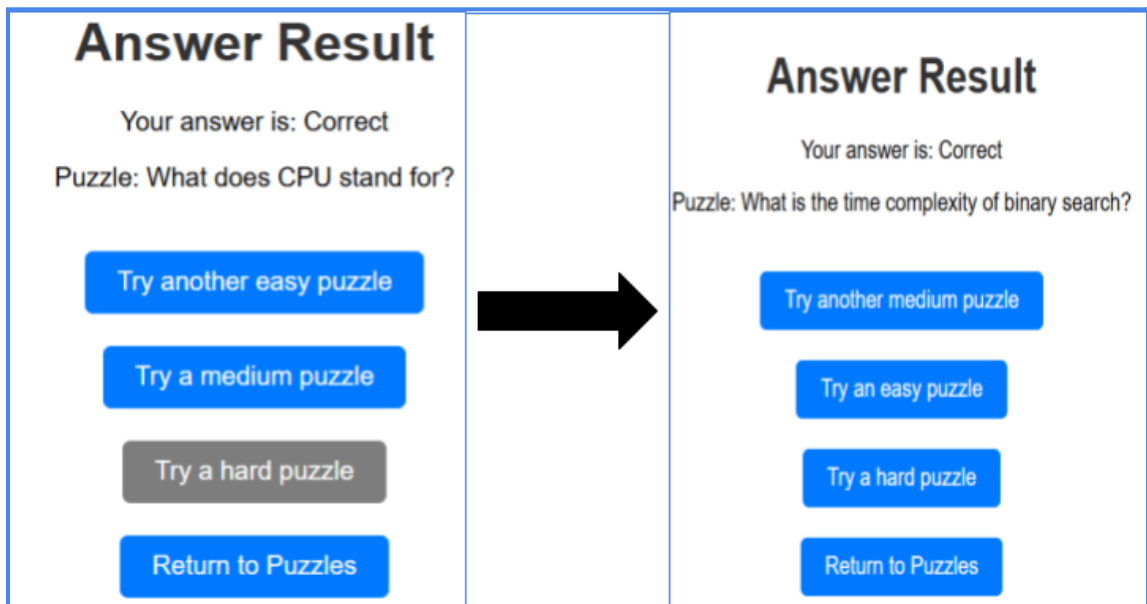

4. Adaptive Learning Paths

- How To:

4.1) **Access Puzzles:** The users looking to complete some puzzles, will be first redirected to this html page, so far only the easy puzzles are available, and the rest are greyed out as the user progresses through the puzzles, more difficult puzzles will be unlocked.

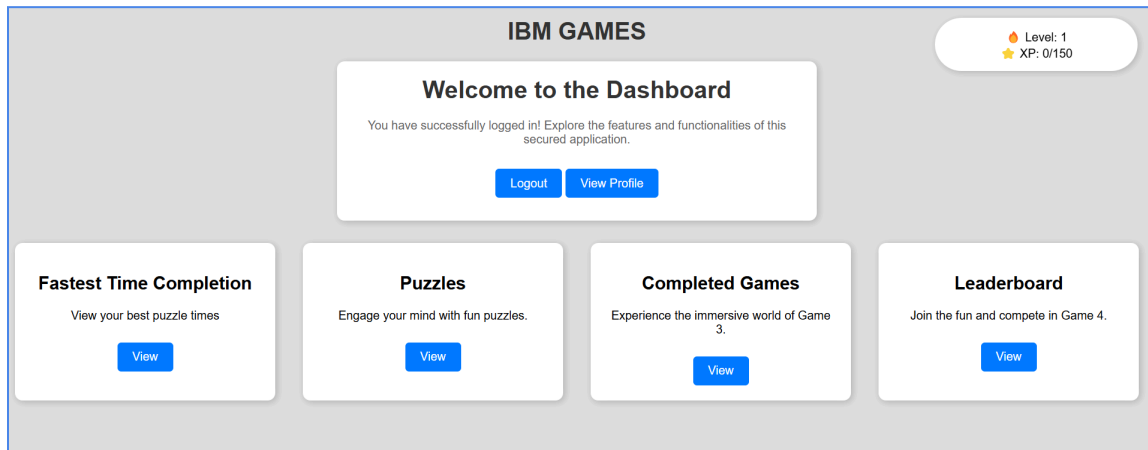

4.2) **Try Another Puzzle:** Similarly, The users can complete puzzles without being on the puzzle page, but straight after their current one has been completed, using a similar feature if the easy puzzles hasn't been attempted, then the others will remain greyed out before completion

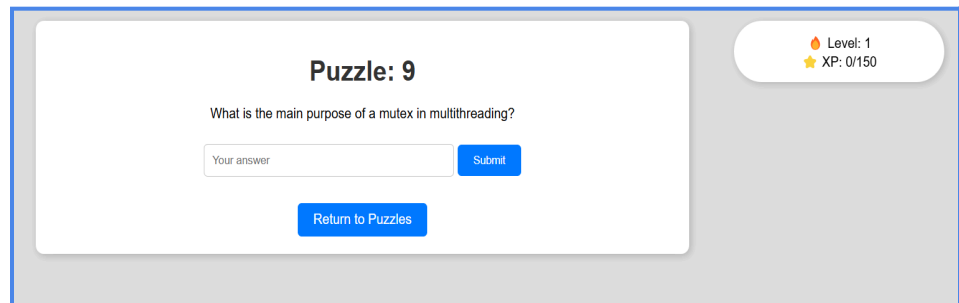

5. XP and Level System

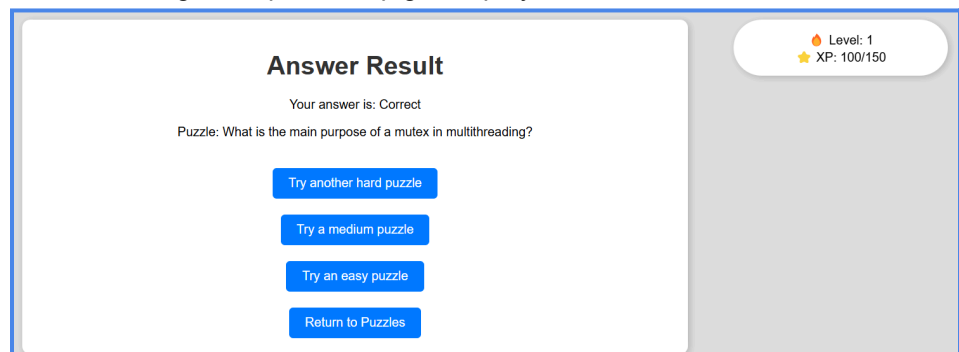

5.1) **Default XP and level:** When the user logs in, every page will display the user on level 1 with an xp of 0.

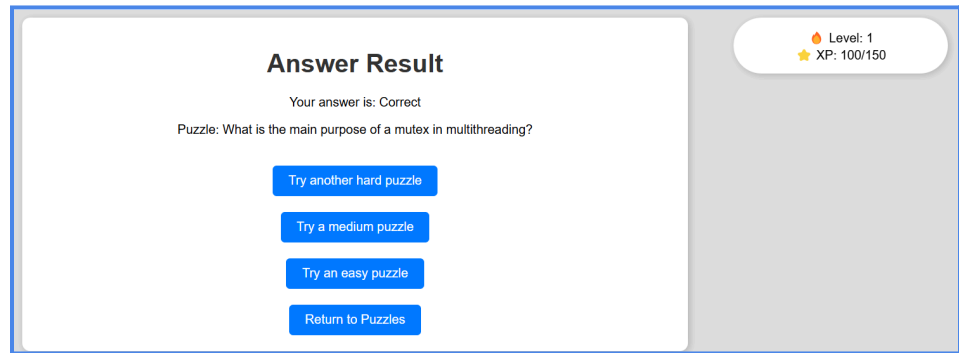

5.2) **XP Increase:** When the user completes a puzzle, the xp will update accordingly depending on difficulty (30 for easy puzzle, 60 for medium and 100 for hard)

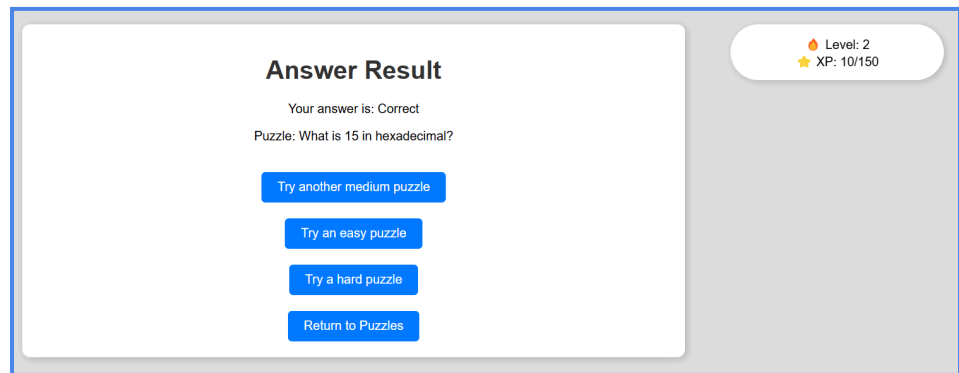

After answering hard question xp goes up by 100

5.3) **Level Increase:** When the user completes a puzzle that puts them over the level threshold (150), the level will increase and the remaining xp will carry over to the next level

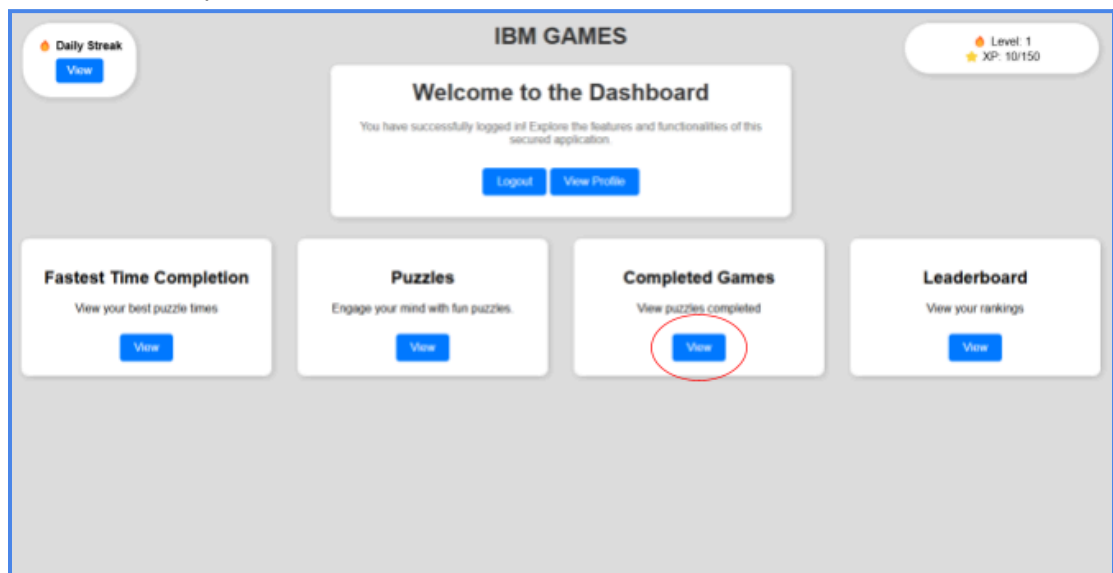

After answering a medium question xp increases by 60 and level subsequently increases

6. Save and Load Progress

How to:

6.1) Accessing Games completed: On the dashboard select View under Completed Games

6.2) Completed games table before playing puzzles: Before the user has played any quizzes the completed games table is empty, there's no data from any previous user who has played the puzzles

Completed Games			
Your Completed Puzzles			
Puzzle	Difficulty	Completion Time	Date Completed
Return to Dashboard			

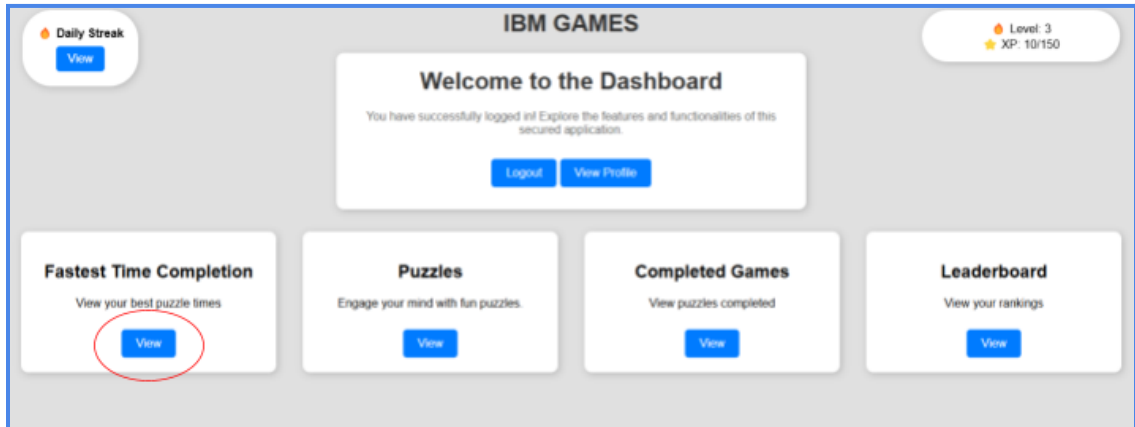

6.3) Completed games table after playing puzzles: Once the user starts playing puzzles each completed puzzle is saved and loaded on to the completed puzzles table including the time/date of completion

Completed Games			
Your Completed Puzzles			
Puzzle	Difficulty	Completion Time	Date Completed
What is 2 + 2?	easy	10 seconds	26/03/2025 03:39
What does CPU stand for?	easy	48 seconds	26/03/2025 03:40
What is the binary representation of 5?	easy	32 seconds	26/03/2025 03:40
What is 15 in hexadecimal?	medium	5 seconds	26/03/2025 03:39
What does HTML stand for?	medium	4 seconds	26/03/2025 03:40
Return to Dashboard			

7. Record start and completion time

How to:

7.1 Accessing time completion table: On the dashboard select View under fastest time completion

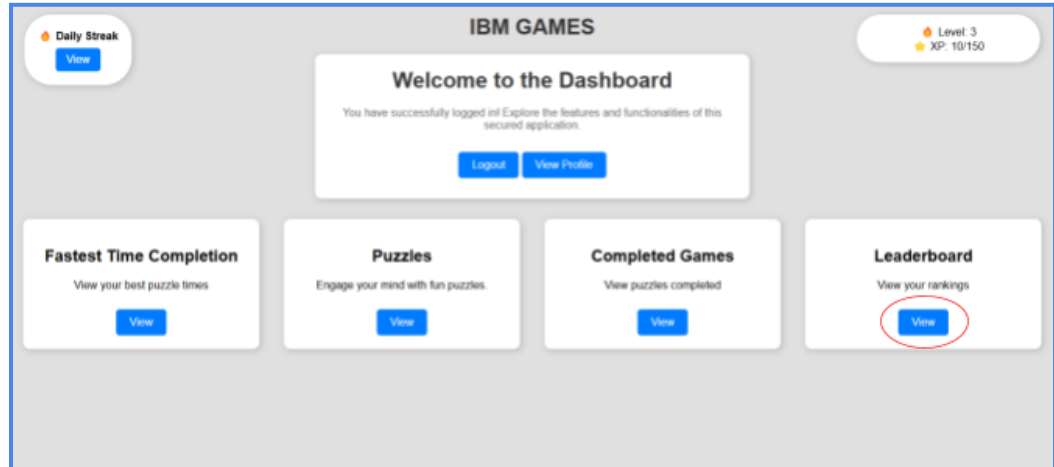

7.2 Viewing time completion table: When the user has played multiple puzzles, they can see the recorded time it took them to solve the puzzle. The table displays this data in order from fastest completed puzzle to slowest. It also includes the puzzle question and difficulty.

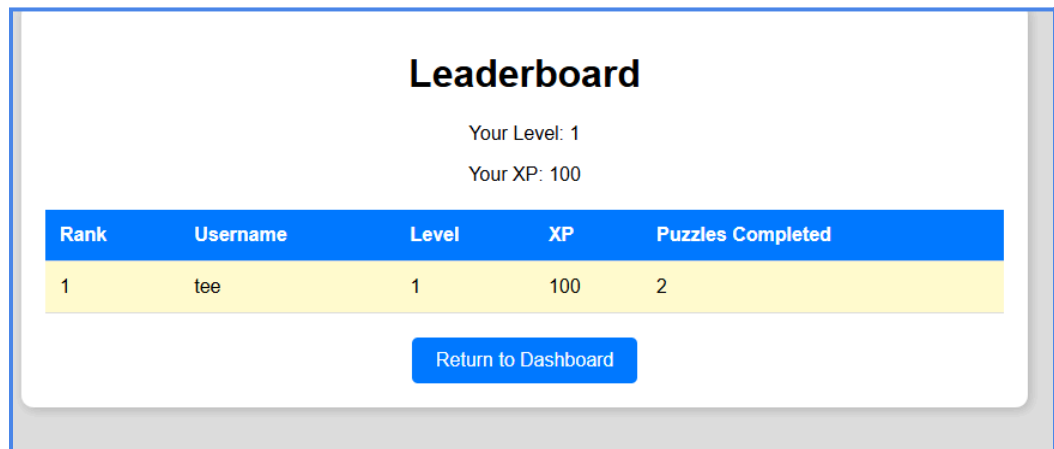

Fastest Time Completion		
Your Fastest Times		
Puzzle	Difficulty	Completion Time
What does HTML stand for?	medium	4 seconds
What is 15 in hexadecimal?	medium	5 seconds
What is 2 + 2?	easy	10 seconds
What is the binary representation of 5?	easy	32 seconds
What does CPU stand for?	easy	48 seconds
Return to Dashboard		

13. Leaderboard

8.1 Accessing Leaderboard Page: On the dashboard select view under Leaderboard

8.2 Leaderboard with one user: When only one user has made an account and played a puzzle or more they will be able to see their Level, XP and number of puzzles they've completed

8.3 Leaderboard with more than one user: When more than one user has made an account the current user can see where they are on the rankings for levels/xp. The User that is currently logged into their account is highlighted so they can see their position clearly. The highest level ranks highest. Within each level the highest XP will be at a higher ranking than the others at the same level.

Leaderboard

Your Level: 3

Your XP: 10

Rank	Username	Level	XP	Puzzles Completed
1	hm	3	10	5
2	tee	2	70	3
3	user	2	40	4
4	tee	1	0	0
5	tee	1	0	0
6	tee	1	0	0
7	tee	1	0	0
